How to Use the Index

Articles and information on health care, nursing, and allied health can easily be located by consulting CINAHL either by subject or by author.

The preliminary pages of all issues contain information important to the effective use of the Index. These pages contain the criteria for selection of materials indexed, this guide to "How to Use the Index", a list of journals regularly indexed, and an ancillary list of journals from which articles are selectively indexed.

The five bimonthly issues and the cumulative bound volume both contain an Appendix, which lists audio-visual materials (listed by producer or title), book reviews (by author of the book), and pamphlets (by publisher, author, or title). Both contain the journal lists and full journal titles for the abbreviations used in citations. Both list U.S. Government abbreviations used in publications.

In addition, each Annual Cumulation contains:

Journal addresses, guide to Regional Medical Libraries, and the list of Subject Headings and Cross References ("Yellow Pages" or Thesaurus).

Beginning a CINAHL Search . . . by Subject

Every search should start with the list of Subject Headings and Cross References (the Thesaurus or "Yellow Pages") in the latest Annual Cumulation volume. From this point, work back through earlier volumes and/or forward through the current bimonthly issues. Consult the Thesaurus in each volume for detailed information about that year's subject headings.

CINAHL editors and indexers have the unique freedom to establish new subject headings responsive to rapidly changing concepts and trends. Indexers assign to articles as many subject headings as are necessary to provide easy access to the literature.

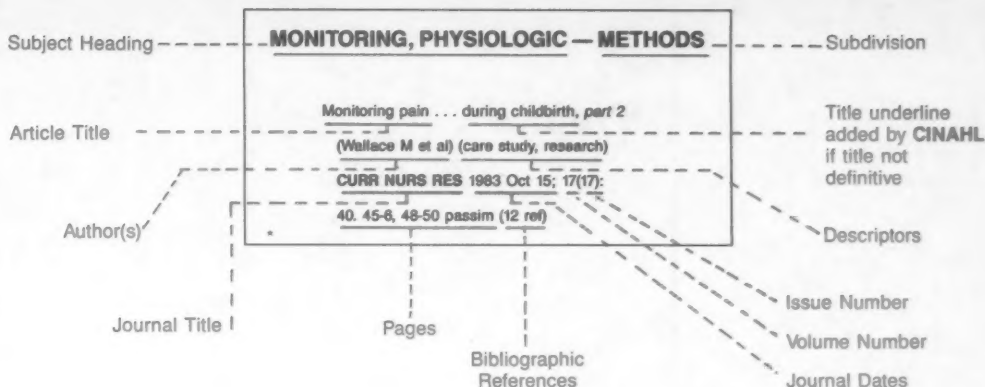

Beginning a CINAHL Search . . . by Author

Since 1967, Vol. 12, the Author Section follows the Subject Section. Before 1967, authors appear interfiled alphabetically with subjects.

Interpreting the Citation

As of 1981, the sequence of bibliographic data within each citation conforms to the standards for bibliographic references as established by the American National Standards Institute. The following page of examples will assist the user in interpreting subject and author citations.

Citation Examples

*Simulated Citation

The Author Section lists a maximum of three authors

JOHNSON DH, HAINSWORTH JD, GRECO FA: Pancoast's syndrome and small cell lung cancer (care study, pictorial) *CHEST* 1982 Nov; 82(5): 602-6 (22 ref)

"See also" references direct the user from a general term to a more specific term (annual only)

KIDNEY FAILURE, ACUTE
see also **HEMODIALYSIS**

with "See" references listed alphabetically for the second and third authors:

Biographies and Obituaries are included in the Author Section. The name of the biographee or deceased appears alphabetically in lower case letters in parentheses

(Farr W) (biography): A pioneer of public health . . . by Carpenter M *NURS TIMES* 1983 Jun 15-21; 79(24):9-11

"See" references direct the user from terms **not** used to terms used (annual only)

Preface

The CUMULATIVE INDEX TO NURSING & ALLIED HEALTH LITERATURE (CINAHL) is a comprehensive and authoritative index to current periodical literature for nurses, allied health professionals, and others interested in health care issues. Approximately 300 nursing, allied health, and health-related journals are regularly reviewed and indexed for inclusion in CINAHL's five bimonthly issues and cumulative bound volume. Indexing also includes pertinent articles from 2600 biomedical journals indexed in INDEX MEDICUS as well as relevant material from popular journals.

CINAHL, the first index to periodical literature in nursing, began in 1956 and is the only index to nursing periodicals for the years 1960 to 1965. Today CINAHL indexes nursing periodicals published in the English language. CINAHL indexes the publications of the National League for Nursing, the American Nurses' Association, and since 1972, the state nursing associations.

Keeping pace with the trend toward the multidisciplinary approach to health care, CINAHL in 1977 extended its coverage of allied health. It is currently indexing the periodical literature of cardiopulmonary technology, emergency services, health education, health science librarianship, medical and laboratory technology, the medical assistant, medical records, occupational therapy, physical therapy and rehabilitation, radiologic technology, respiratory therapy, and social service in health care.

Criteria for Selection of Materials

- A. Articles from nursing and allied health journals which meet the following criteria:
 - 1. Original, substantive signed, and selected unsigned, articles.
 - 2. Editorials of national and international scope and interest.
 - 3. Biographies and obituaries with substantive background materials. Reports about outstanding nurses and allied health professionals. (See Author Section)
 - 4. Reports of national and international organizations and conventions which have comprehensive information or content.
 - 5. Important national legislation regarding basic changes pertinent to health professionals or regarding major health plans.
 - 6. Poetry, if considered pertinent.
- B. Articles from medical science journals, management journals, and from selected popular periodicals with nursing or allied health content, or otherwise of interest to the professionals in those fields.
- C. Serials and pamphlets published by the American Nurses' Association; the National League for Nursing; and the United States Department of Health and Human Services, Division of Nursing.
- D. Audio-visual materials, book reviews, and pamphlets as listed in the journals indexed.
- E. Types of materials NOT included in the Index:
 - 1. information of dated or transient nature, e.g. news items, notices of meetings, elections, committee activities.
 - 2. Abstracts, briefs, summaries.
 - 3. Financial reports, resolutions and bylaws.
 - 4. Reprints of materials, except those in foreign journals.
 - 5. Editorials of local interest; letters to the editor.
 - 6. Promotional or parochial articles.

CINAHL Services

Current Service: Current annual subscription, 1984, Volume 29, includes 5 bimonthly issues plus the hardbound cumulation. Write for current prices.

Back Volumes: Write or call for current price information. Also available in microform from University Microfilms, 300 N. Zeeb Rd., Ann Arbor, MI 48106.

Transition Guide To 1983 Subject Headings: CINAHL's Subject Heading List has been significantly revised. The structural model for this revision was the National Library of Medicine's system of Medical Subject Headings (MeSH). However, the unique nursing and allied health headings for which CINAHL has always been known have been retained. The *1983 CINAHL TRANSITION GUIDE* is essential in making the transition from 1982 to 1983. Each GUIDE contains a comprehensive alphabetic Subject Heading List with many new and improved scope notes and cross references; hierarchical tree structures to show relationships among terms; a guide to changes, and detailed instructions on how to use the new structure.

1984 Subject Heading List: Includes updated alphabetic Subject Heading List, Tree Structures, and all subject heading changes used throughout 1984. Available separately at the beginning of 1984 and published in the 1984 annual cumulation.

Publication Schedule:

<u>Issue</u>	<u>Mailed</u>
January/February	Late March
March/April	Late May
May/June	Late July
July/August	Late September
September/October	Late November
Annual Cumulation	Late February

(No November/December issue; indexing for these two months is, for the most part, included in the September/October bimonthly. The remaining indexing is published in the annual cumulation.)

Allow 4-6 weeks for delivery in U.S. and Canada; 10-14 weeks, other countries. Claims for missing issues must be made within 90 days of shipping date; outside U.S. (except Canada), 150 days.

CINAHL Online: Available through database vendors DIALOG and BRS in 1984.

How to use CINAHL Audiovisual: Slide/tape presentation revised in 1984. Write or call for details.

Free CINAHL Newsletter: CINAHL's semiannual newsletter, CINAHL NEWS, is mailed regularly, at no charge, to all subscribers at their current mailing address. To receive your personal copy, please write: Editor, CINAHL NEWS, P.O. Box 871, Glendale, CA 91209.

Copies of Articles: Copies of articles unavailable through local sources or the Regional Medical Library can be obtained from Glendale Medical Center Library, CINAHL Depository, 1509 Wilson Terrace, Glendale, CA 91206. The fee is \$5.50 per article. Use the standard ALA Interlibrary Loan Form with billing authorized on each request.
